portantly, in support of life, an unalienable right endowed by our Creator.

For over 40 years, Democrats and Republicans have come together to include the commonsense prohibition on taxpayer-funded abortions, better known as the Hyde amendment.

President Biden himself was a vocal backer of the Hyde amendment during his decades in the Senate.

Because of Hyde, 2.5 million lives have been saved and afforded the chance to reach their God-given potential.

Yet, as we stand here today, House Democrats are advancing an annual funding bill that shockingly abandons the longstanding Hyde amendment.

It shouldn't be controversial to spare precious babies and give taxpayers the assurance that their hard-earned money is not used for abortions.

Therefore, Mr. Speaker, I ask unanimous consent that the Committees on Energy and Commerce, Ways and Means, and the Judiciary be discharged from further consideration of H.R. 18, and ask for its immediate consideration in the House.

The SPEAKER pro tempore. Under guidelines consistently issued by successive Speakers, as recorded in section 956 of the House Rules and Manual, the Chair is constrained not to entertain the request unless it has been cleared by the bipartisan floor and committee leaderships.

□ 1830

SAVE OAK FLAT

(Ms. LEGER FERNANDEZ asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LEGER FERNANDEZ. Mr. Speaker, I rise today to save Oak Flat. Oak Flat is a sacred land for the San Carlos Apache Tribe, a land deserving of protection under our Historic Preservation Act.

The Resolution Copper Mine, a Chinese company, will completely destroy the sacred area and leave behind 1.4 billion tons of mine tailings waste and create a crater 1.8 miles long and 1,000 feet deep.

We have to ask ourselves, will we allow a foreign-owned mining company to create such destruction? Will we allow them to devastate a sacred land so they can export American natural resources to China for their profit?

No.

This project would use enormous amounts of water and will produce toxic waste that will destroy ecosystems in the area and change the landscape forever.

We must stand against foreign companies destroying traditional cultural landscapes. We should not grant China this competitive edge.

I urge my colleagues to support H.R. 1884, the Save Oak Flat Act, so we can protect this Tribal sacred area.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H. RES. 289

Mr. NORCROSS. Mr. Speaker, I ask unanimous consent that Representative OBERNOLTE's name be withdrawn as a cosponsor of H. Res. 289.

The SPEAKER pro tempore (Mr. CARTER of Louisiana). Is there objection to the request of the gentleman from New Jersey?

There was no objection.

ALLOW MEDICARE TO NEGOTIATE DRUG PRICES

(Ms. WILD asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. WILD. Mr. Speaker, we hear a lot of talk about the soaring costs of prescription drugs, but we seldom hear about the sad fact that Medicare is not allowed to negotiate prescription drug prices.

Earlier this month, drug companies announced yet another painful price hike on critical medications. The soaring price of prescription drugs is crushing Americans at the pharmacy counter, driving up health insurance premiums and creating unaffordable costs for taxpayers, who finance Medicare. That is right. We, the people, fund Medicare. Yet, due to an antiquated law, Medicare has to pay drug prices without the right to negotiate.

That is why, last week, I led a group of my colleagues in sending a letter to leadership, demanding that Medicare negotiation of drug prices be included in the upcoming reconciliation bill.

This is common sense, and it is long overdue.

According to the CBO, allowing Medicare to negotiate drug prices would save American taxpayers \$456 billion in just the first 10 years alone, with those savings heading right back into the pockets of American families. And it would bring down drug prices for all Americans, not just Medicare recipients. Together, we can get this done.

REQUEST TO CONSIDER H.R. 18, NO TAXPAYER FUNDING FOR ABOR- TION ACT

(Mr. WALBERG asked and was given permission to address the House for 1 minute.)

Mr. WALBERG. Mr. Speaker, I rise today in support of taxpayers and, im-

□ 1822

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

REMEMBERING PATRICIA WILKINSON

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Mr. Speaker, I rise today with a heavy heart to remember and honor Patricia Wilkinson of Jackson, Mississippi, who recently passed away at the age of 73.

Pat and her husband, Joe, retired to St. Simons Island in my district.

I had the pleasure of serving with Joe in the Georgia General Assembly and the greater pleasure of calling Pat and him friends.

Following graduation from the University of Mississippi, Pat followed in her older sister's footsteps to become a flight attendant with Delta Airlines. She spent 50 years as a highly respected senior international Delta flight attendant.

Outside of work, Pat was an active member of the Sandy Springs Society and the Woodward Academy Parents Council.

Pat's love for life and travel was contagious. While she loved flying, nothing could compare to the love she had for her family. Her family was the center of her world, and she brought joy and unconditional love to all.

My thoughts and prayers are with her family, friends, and all who knew her during this most difficult time.

CHILD TAX CREDIT LIFTS UP FAMILIES

(Mrs. MCBATH asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. MCBATH. Mr. Speaker, there is a special place in every parent's heart for summer with our children. My son, Jordan, used to put on his little cleats and a big hat and run out onto the field to play tee-ball with his friends on Saturday mornings. After that, we would go to the pool to cool off; eat lunch under a shady tree; play in the backyard as the day turned to dusk; and read a story together as he drifted off to sleep.

Truly, summer is for hardworking parents to spend time with the little ones that they love most. It is for our children to grow and live and learn and play.

That is why I am so proud that we just passed the child tax credit into law. It means more money in the pockets of middle-class families. Now, over 680,000 families in my home State of Georgia will receive a tax cut, and these credits will raise over 160,000 children in Georgia out of poverty.

This is more funding for Georgia families to protect our children and to lift up our communities.

MARY WALLACE "WALLY" FUNK HAS LED AN AMAZING LIFE

(Mrs. BICE of Oklahoma asked and was given permission to address the House for 1 minute.)

Mrs. BICE of Oklahoma. Mr. Speaker, I rise today to honor the former Flying Aggie, Oklahoma State University graduate, and my Alpha Chi Omega sorority sister, Mary Wallace "Wally" Funk, who today became the oldest woman to have traveled to space. At 82 years old, Funk has led an amazing life, from breaking down gender barriers to careers in aviation, and now space travel.

In my home State of Oklahoma at Fort Sill, Funk achieved many firsts, including the first female civilian flight instructor, first female air safety investigator, and the first female FAA inspector.

Persistence is just one of the many wonderful qualities to describe Funk. When NASA began accepting women to go to space in the late 1970s, she applied three times.

As a pioneer of the aviation and space exploration, Funk's courage, perseverance, and leadership has positively impacted the science industry, especially for women. Mr. Speaker, I am truly honored to recognize Wally Funk for her vast achievements.

AN EMOTIONAL DAY

(Mr. CÁRDENAS asked and was given permission to address the House for 1 minute.)

Mr. CÁRDENAS. Mr. Speaker, today is a very emotional day for me. I am so proud to be a Member of the House of Representatives, equally proud to be an American-born citizen, and equally proud to be raised by my two immigrant parents, who always believed that in this country, the United States of America, you can be the best that you can be, and you can do the kinds of things that in many parts of the world a child of parents with a first- and second-grade education doesn't have the opportunity to do.

Today we passed a bill, with the support of our staff and colleagues in the House of Representatives, to help protect consumers, to put billions of dollars back in the pockets of individuals who have been and unfortunately will be ripped off by bad actors across this country, but they will be protected.

The faith of our government to work for our people is being restored by restoring section 13(b) to the Federal Trade Commission.

Again, this is a very emotional day for me because my parents came to this country, working in the fields, harvesting fruits and vegetables to help Americans eat, and I get to be a Member of this House, harvesting votes to help restore the confidence and faith of the American people in our system.

CELEBRATING THE CAREER OF DR. BRIAN TOTH

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to celebrate

the career of Dr. Brian Toth. Brian has spent a total of 38 years in education. He is a passionate and dedicated education professional. Dr. Toth started his career in 1983 as a math and computer teacher in the Altoona Johnstown Diocese system. Over the years, Brian taught in five different school districts, eventually reaching the ranks of superintendent.

He is a proud graduate of Penn State University, St. Francis University, California University of Pennsylvania, and the Indiana University of Pennsylvania.

His dedication to his students and the communities in which he worked is admirable. Aside from serving for 18 years as a superintendent, Dr. Toth is the former president of the Pennsylvania Association of School Administrators and a former PASA governing board member where he represented IU8 and IU9.

He also served as a former vice president of PA Local Government Investment Trust, a former PA representative on the American Association of School Administrators governing board, the former president of the Pennsylvania School Study Council, and the vice chair of the Community Education Council.

I thank Brian for his continued service in education and for his dedication to his students. May he enjoy his retirement.

BROADBAND FOR RURAL AMERICA

(Mr. ALLEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ALLEN. Mr. Speaker, Congress has appropriated well over \$300 billion to State and local governments over the past 14 months to help provide broadband access, but we must ensure these funds are being utilized to meet the needs of rural America.

This is only possible if Federal broadband maps are accurate. Last Congress I supported the Broadband DATA Act, which was signed into law and directed the Federal Communications Commission, or FCC, to allow independent third-party data to challenge these maps.

Many States, including Georgia, have already done their own work to identify areas with immediate broadband needs.

I recently sent a bipartisan, bicameral letter to the FCC urging them to utilize data from the Georgia Broadband Map program in their new mapping program and insisting that regular updates be provided to Congress.

House Agriculture Republicans have also marked up the Broadband for Rural America Act, which will provide targeted assistance to the least-connected residents.

I look forward to working on bipartisan solutions to ensure every household has broadband access while being good stewards of taxpayer dollars.
